

# 2021

GO Transit is the Greater Toronto and Hamilton Area's interregional public transportation service, carrying over 200,000 passengers each weekday. GO's commuter train ridership is the fifth highest in North America, after the three New York railways and Chicago's METRA.

As part of the new 60 km expansion of GO train service to Niagara, a new station is slated to open in Grimsby by 2021.

Located within walking distance to the new Grimsby station, AquaZul residents will enjoy the convenience of GO Transit into Burlington, Hamilton, Oakville, Mississauga and Toronto.

And by 2023, GO Train service will be available all the way to Niagara Falls! Imagine the convenience of an easy commute from your home at AquaZul. You can be in downtown Toronto and points throughout the GTA in under an hour! Imagine the growing value of your AquaZul home within this richly serviced transit-oriented community.
